HUNS UNMASKED BY AN ATTACK IN THE BALTIC

(By Associated Press)
LONDON, June 9.—The Estonian general staff will consider itself forced to start military operations against the Germans, says a Helsingfors dispatch to the Mail. This action is in consequence of the action of the Germans in the Riga district advancing behind the Bolshevik lines for the purpose of occupying the eastern frontier of Livonia, which, with a treacherous attack upon the Estonians by German cavalry under orders of General von der Goltz, Commander of German forces in the Baltic region, it is said, "unmasked Germans as accomplices of the Bolsheviks."

IRELAND NEARS AN OPEN REVOLT

(By Associated Press)
PARIS, June 9.—Guerrilla warfare of the character "which usually precedes a major conflict is going on in Ireland," Frank Walsh and Edward Dunn, declared in a supplementary report to President Wilson regarding conditions in Ireland. They asserted that clashes between the Irish volunteers and army forces in Ireland, in which men are killed on both sides, occur daily.

PITTSBURG MAN VISITS DIVIDE

William P. Lemley of Pittsburgh, Pa., accompanied by A. L. Chappell of Reno paid a visit to Tonopah Sunday. The visitors paid special attention to the development and progress being made in the Divide camp.

Mr. Lemley, who owns one of the largest investment houses in the east, also owns large mining interests in Nevada. His largest activities at present are confined to the Peavine mining district, 11 miles north of Reno on the Standard Metals company properties, of which he is president, and owns control of that company.

Development work has been carried on continuously for more than two years resulting in the opening up of a large body of silver-lead ore. A fifty-ton flotation mill is now building, which will be operated electrically. A power line 5.7 miles in length is now being built.

Mr. Chappell, who was active in Tonopah mining during the early days is vice-president and general manager of Standard Metals.

Messrs. Lemley and Chappell expressed themselves as highly gratified with what they saw on the Divide and predict for it a wonderful success.

GERMANS HAVE FIVE DAYS TO ACCEPT

(By Associated Press)
PARIS, June 9.—The reply to the German counter proposals will be delivered Friday, June 13. The Germans have five days to accept or reject.

TODAY AND A YEAR AGO

9 a. m.	63
12 noon	73
Maximum June 8	75
Minimum June 8	52
Relative humidity at 2 p. m. yesterday, 30 per cent.	

WILSON WILL NOT GIVE TEXT OF THE TREATY AS HIGHLY UNDESIRABLE

(By Associated Press)
WASHINGTON, June 9.—A cablegram from President Wilson to Senator Hitchcock, Democrat, said he hoped the investigation of the senate foreign relations committee of how copies of the peace treaty reached private interests in New York would "be most thoroughly prosecuted." He said he felt it "was highly undesirable officially to communicate the text of the document which still is in negotiation subject to change," and that anyone who had possession of the English text "has what he clearly is not entitled to have, or to communicate."

This statement strengthened the belief that the president will not comply with the request of the senate that the treaty of the text be furnished at this time.

The committee has subpoenaed Jacob Schiff, Thomas Lamont, H. P. Davison, Paul Warburg, J. P. Morgan and Frank A. Vanderlip. Lamont was requested to bring any correspondence regarding the treaty that passed between Morgan & company and its Paris-London agents, particularly any communication between the company and Davison while the latter was abroad. The senate adopted the motion of Senator Fall, Republican, inviting Acting Secretary of State Polk to appear as a witness and participate in the inquiry.

Senator Lodge, who made the charges that the treaty was in the hands of New Yorkers, declined on the grounds of senatorial immunity to give the names of persons who had the treaty, but said he asked permission to disclose their names. Senator Borah, who made similar charges, said he had not seen copies of the treaty but was informed that copies were in New York. Senator Polk said he received copies from Paris; the ones locked in the state department vault; he did not believe were the ones referred to.

Before the investigation fairly had started Senator Borah presented in senate a copy bought by a Chicago newspaper correspondent. It was ordered printed in the Journal as a public document.

The committee adjourned without fixing a date for the next meeting. The investigation will be made by a full committee, chairman Lodge, was expected to call another meeting soon.

NEW REGULATION FOR PERISHABLE FREIGHT

(By Associated Press)
WASHINGTON, June 9.—Investigation of the proposed new tariff and regulations on the shipment of all classes of perishable freight has been ordered by the interstate commerce commission at the request of the director general of railroads, who has had new regulations under discussion with representatives of producers and shippers throughout the country. Examiner R. C. Marshall has been assigned to hold a hearing in Los Angeles, July 7.

NOTICE TO EAGLES

At the regular meeting of Tonopah Aerie No. 271, F. O. E., held on Tuesday the 10th inst., a smoker will be given when our Worthy State President, Brother N. M. McCormick, Past State Secretary Brother C. L. Richards, Junior Past Worthy President, Brother Thomas E. Prout and Worthy Delegate, Brother Pete Boko will report the proceedings of the eighth annual convention of the Nevada state aerie held at Lovelock, Nevada, on the 19th ult.

Special business will be brought before the meeting and a good attendance is requested.

Liquid refreshments will be served and an enjoyable time had. Visiting Eagles are cordially invited. The hour is 8 o'clock p. m. and the place Eagles' hall on lower Main street.

Visiting Knights cordially invited to be present. By order of STANLEY P. KNIGHT, C. C. WHARTON ANDERSON, AdvJ711 K. of R. and S.

AUTHORS OF WAR MAY BE TRIED FOR THE CRIME

(By Associated Press)
BERLIN, (Sunday) June 8.—The constitutional convention has completed consideration of a bill creating a state court to try those accused of starting, lengthening and losing the war. The bill will be presented to the national assembly today. The measure provides for a committee of fifteen members of the national assembly to investigate and requires the government to produce any documents needed at the projected trials. The accused will be permitted to have counsel and would have the privilege of testifying. Deliberations of the court will be secret. There will be no appeal from its verdict.

GETTING RID OF UNDESIRABLES

(By Associated Press)
PARIS, June 9.—It is understood that the final draft of the political clauses of the Austrian treaty are being delayed by discussion on the demand of the Italians for provision for authorizing deportation of "undesirables" in that part of the Austrian Tyrol to be annexed to Italy. This demand is meeting with considerable opposition.

50 MILE POWER LINE FOR SIMON

Construction work on a power line from Thorne to the property of the Simon Silver-Lead Mining company in the Simon district of Mineral county will be started at once, according to P. A. Simon, president of the company, who returned from Riverside where he completed arrangements for the project.

The mining company will construct the power line and will secure power from the Nevada-California Power company. It will be fifty miles long and will cost about \$5,000. It is expected that it will be completed within 90 days.

Tests are now being made by the company preparatory to the construction of a 200-ton flotation plant to treat the ores from the mine and none of the ore will be shipped before the mill is built according to Mr. Simon. Considerable preliminary test work must be done, however, before work will be started on building the mill and it will be some time before it is in operation.

Simon is also going to introduce the caterpillar tractors into mining in Mineral county and will put some tractors to work running between the mine and Mina within the next few weeks. The tractors will be used to haul in machinery and supplies for the mine and mill and also to haul concentrates from the mill to the railroad. The wagon road to the mine needs considerable repairing before the tractors will be able to operate successfully and this work will be started at once.

Simon is also discussing the possibility of a railroad from Mina out to the mining district, but this is for future consideration, he says, and will not discuss the subject to any extent now.

AMOY PROTESTS AGAINST COUNCIL OF THREE

(By Associated Press)
AMOY, China, June 9.—Business is suspended and schools closed here in protest against the arrest of students in Peking, following disorders resulting from announcements of the action of the council of three at Paris relative to Shantung and Kiao Chau.

SIX INCHES GIVES \$819 TWO FEET WORTH \$232 WITH \$168 FROM DRIFT

With 55 feet opened without disclosing walls, the Divide Extension is scheduled for almost any flight of the imagination. The physical condition is superior to anything that was ever dreamed of on the Divide and sets a pace that surpassed the wildest fancy. The official statement of the company speaks for itself in the following report issued this morning:

"The crosscut looks bigger and better with every shot. Today's assays show that a two foot face on the west crosscut assays \$123 while an additional two feet from the same place assays \$232. The north drift in the west crosscut assays \$102 while the north drift from the east crosscut runs \$168. The highgrade streak in the same place six inches wide assays \$819. The present width of the vein is 55 feet with no walls yet and these two drifts are that distance apart."

Manager Caldwell of the Horseshoe stated this morning that the shaft on that property was started on the ledge which was the full width of 8 by 10 feet with the identical dip of the ledge found on the Divide Extension. The formation was mineralized and values running from \$1 to \$28 were taken. The best values are found in the wall that dipped out of the shaft to the east after going down a short distance.

Roy Hardy and George A. Garry, representing the Extension and the Wingfield-Brougher companies examined the Horseshoe yesterday and agreed that the ledge was the same as the big strike. A photograph taken in the afternoon shows the Caldwell shaft on the Extension and the new shaft on the Horseshoe to be right in line. Trenching began on the Brougher estate on top of the hill to pick up the extension of the Caldwell ledge.

Reports from the Zone estate state that both crosscuts on the 500 level are in Divide breccia. The change came in within the past two days. Despite this improvement the stock eased off today from the opening at 95 to 88.

Extension was the prime factor bringing some of the old time tabasco flavor to the market. Opening 20 cents above the close of Saturday there was one sale at \$1.95 and then the hurricane of orders sent the price steadily to \$2.25 when it eased off to \$2.15 with sales of 40,500 shares out of a total of \$72,200 shares. Dividend opened at 55.

HAIR TURNS WHITE
AFTER WAR EXPERIENCE

(By Associated Press)
CHEYENNE, Wyo., June 9.—Sergeant J. W. Roberts, formerly of Des Moines, Ia., has white hair today, though he is not out of his twenties. Roberts recently was discharged from the army at Fort Russell. In eighteen months overseas, he participated in seven battles and was wounded in each, receiving five rifle wounds in the legs. On top of all this, he came home only to find that his father, mother, wife and two children had succumbed to the influenza during the epidemic last winter. Now he is working with the Union Pacific railroad company here as a crossing watchman.

AIRPLANES ARRIVE

(By Associated Press)
MEDFORD, Ore., June 9.—Seven airplanes from Mather Field arrived at 10 o'clock this morning from Granada, Cal., where they had remained over night.

The greater part of Russia refuses to dance the Lenin glide.

FULL TEXT FOR NEWSPAPER USE

(By Associated Press)
NEW YORK, June 9.—The full text of the treaty brought to the United States by Frazier Hunt, correspondent of the Chicago Tribune, is being syndicated to newspapers. Hunt said his copy of one of the original drafts, was obtained in Paris. He declared it was quite easy to obtain German translations in Germany and neutral countries. An other American correspondent abroad secured and mailed a full copy but the British censor held it up. The complaint is a matter that will be officially investigated by the senate foreign relations committee today.

GOLD EMBARGO LIFTED TODAY

(By Associated Press)
WASHINGTON, June 9.—The embargo against exportation and importation of gold will be removed by Wilson on recommendation of the federal reserve board. Hereafter gold may be imported or exported freely to all countries except Bolshevik Russia. The control exercised over foreign exchange was terminated.

FIREMAN CAUGHT BY CUPID

The boys of the fire department were treated to a real surprise Saturday night when they were apprised of the marriage of Sheldon McLean, one of their number to Miss Ambrosia Peterson. The event took place at Goldfield.
